SENATOR SYAS: Can I ask...

CLERK: It depends upon how much you are going to advance and then we can tell you how fast that....

SENATOR SYAS: Can I ask it this way?

PRESIDENT: Senator Syas, I am going to rule you out of order until we take care of this other motion, and then you can get your questions answered. We have a motion before the house and that is the way I'm going to rule. Does anybody want to talk on the suspension of rules of Senator Cavanaugh's to take up 795 and 1051. If not, the question is before the house. Senator Cavanaugh.

SENATOR CAVANAUGH: I would just close by saying that if we want to deal with this and if you want to avoid and if we want to confront federal government with their threat and call them. Lets do it on a vote, lets not do it by hiding in the woods and lets stand up and be counted and those of us that want to defy the federal government could put it on the record and those of us that don't can put that on the record.

PRESIDENT: Senator Cavanaugh has closed. All those...wait a minute, do you have a question of Senator Cavanaugh, Senator Kennedy?

SENATOR KENNEDY: Yes, I wonder if it is possible that you think that waiting until Monday until Senator Kremer is back here.

SENATOR CAVANAUGH: Nobody made a motion until Monday. I think that Senator Carpenter's motion was timely and in order. Everybody here understands the issue.

PRESIDENT: Senator Chambers do you have a question of Senator cavanaugh?

SENATOR CHAMBERS: Mr. Speaker, or whatever your term would be,

PRESIDENT: Same as yours when you sat up here.

SENATOR CHAMBERS: Thats right, Mr. President, if the rules are suspended, each one of these bills will still be taken individually as...

PRESIDENT: As an individual bill, that is correct.

SENATOR CHAMBERS: OK, thank you.

PRESIDENT: Senator Nore do you have a question of Senator Cavanaugh?

SENATOR NORE: I have a question. The Federal Government is not said in their letter that they would withhold the funds. They said that they might be in jeopardy. That is pretty weak.

SENATOR CAVANAUGH: What is the question Senator Nore.

PRESIDENT: Did you ask a question Senator Nore, he doesn't seem to know what you asked him. Would you explain it a little more carefully.
